

RÍO ÉSERA

Type: Patrol Boat

Hull material: GRP + KEVLAR reinforcement

Owner: Ministry of Interior (Spain)

With an overall length of 20.90 m and a beam of 5.00 m, these Patrol Vessels are designed and equipped for surveillance and fighting drug trafficking and illegal immigration, as well as protecting the marine environment, within the scope of the duties of the Spanish Civil Guard. Built for a service life of at least 15 years, both vessels can reach a speed of 37,5 knots thanks to their over 1,200 hp engines.
